LIST PRICE BOOK WARRANTY AND SERVICE WORK. (PART II)

1. Warranty

Refer to the conditions specified in the Product Warranty Form on Page 2.1

2. Service

Inline Fiberglass Ltd, has always taken pride in the fact that we produce a high quality product and support our Dealers with post-sales service

With ever increasing costs for labor, material and transportation, we wish to remind you of the contractual responsibility we both undertake, so that service costs may be kept to a minimum and satisfied customers are retained.

A). Inline is responsible to replace free of charge any material which is defective, or which does not conform to product specifications. It is most important that all products be thoroughly inspected and checked for quality and conformance to that ordered, PRIOR to acceptance from Inline and installation in the customer's home.

The cost of correcting a problem before installation is minimal to the cost once the product has been installed.

B). The Dealer is responsible for the proper installation in the customer's home. This installation should be done in a professional and workmanlike manner, and includes the application of perimeter insulation and caulking to ensure a weather tight installation. Should minor adjustments in the operation of the product be required, it is the Dealer's responsibility to make these on-site adjustments.

C). The Dealer is responsible for ensuring that his or her Salesman is fully familiar with the characteristics of Inline products, so that in presenting his or her sales proposal to a potential buyer, he or she does not exaggerate or make misleading statements on the construction, performance or material content of the product.

D). The Dealer is responsible for fully checking out any complaint reported to him. The examination of the complaint involves an on-site inspection of the product and the installation. Should the inspection reveal that a minor adjustment to the product is required, or that the installation is at fault, the Dealer is responsible for making the necessary corrections. ***Service work will only be carried out upon receipt of a proper service request form that is 100% complete, with all the information required including invoice number.***

In order to minimize the cost of service calls, and to eliminate those service requests which are not Inline's responsibility the following steps are to be followed:

2.1 The fee of \$100 + G.S.T. for local, and by estimate only for out of town will be enforced for any service calls where the problems are one of installation or product adjustment, not deemed the responsibility of Inline Fiberglass Ltd. Parts if required will be quoted, applicable taxes extra.

2.2 SERVICE WORK WILL NOT BE CARRIED OUT WHERE AN ACCOUNT IS NOT ADHERING TO OUR PAYMENT TERMS

2.3 All complaints will be channeled through the selling Dealer.

2.4 The Dealer will then inspect and assess the complaint where Inline is involved and will complete an Inline Service Report and fax it to Inline Fiberglass Ltd.

2.5 The report will enable Inline to pull the original order and take the necessary action. At this point a decision will be made as to who will be responsible for the service and where the onus for the cost of the work will be.

2.6 Service work and inspection will be carried out on a "first come, first served" basis when reported in writing to our Service Department.

2.7 Where parts and/or repairs are required, not covered under warranty, the service will be performed after the customer accepts the estimate. See 2.1

Inline reserves the right to discontinue, modify, or re-design any Inline product without notice. Should replacement be required under the terms of this warranty and an exact replacement part is not available, Inline reserves the right to substitute a part or parts at its sole option.

This Warranty supercedes any and all other warranties, either expressed or implied.
